1. The following is an examiner's statement of reasons for allowance: withdrawal of prior art rejection of former claims 1-10 and 12-20 in view of: (1) amendment of former independent claim 1 so as to define the claimed invention more specific over prior art of the record (by incorporating limitations of former claim 4); (2) presentation of persuasive arguments relating to the rejection of former claims 12-20. Newly added claims are in the condition for allowance since prior art of the record does not disclose applicant's claimed front filter including: a touch screen for generating a coordinate signal with respect to a touch point; and an antireflection coating for preventing an external incident light from being again reflected toward an external, as recited in claim 21.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
